RENAULT

— logotype

this is our **emblem**

Our emblem **lives now by itself:**
except for some specific cases,
it doesn't need its Renault mention
anymore.

When using it with other text or graphical elements, give it the place it deserves.

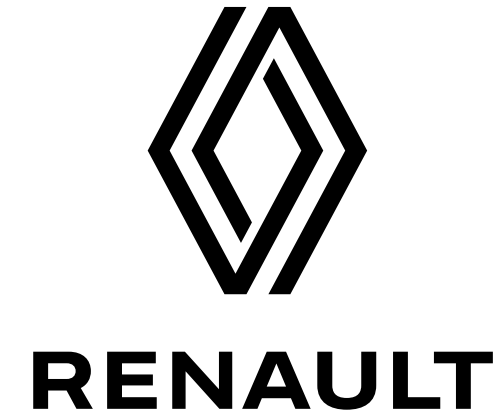

emblem

these are our
logo blocks

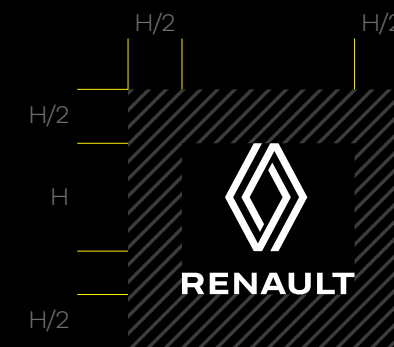

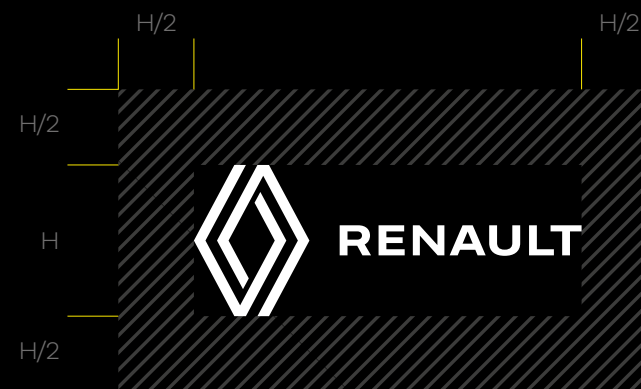

Our logo blocks **must be used sparingly**, whenever the emblem alone could not be applied for legal or visibility issues for instance.

They come in two versions: horizontal and vertical.

Following the support on which you display it, prefer the most suitable version, and make sure you follow the rules.
